***Cross-functional
KPMG's Summer Leadership Programs
All Locations***

KPMG LLP, the audit, tax and advisory firm (www.kpmg.com/us), is the U.S. member firm of KPMG International Cooperative ("KPMG International"). KPMG International's member firms have 145,000 professionals, including more than 8,000 partners, in 152 countries.

Each summer, KPMG offers opportunities for students to develop their global leadership skills and gain new perspectives on public accounting through one of our summer leadership programs. These programs, offered at the international, national and local levels, allow students to:

- Explore audit, tax, or advisory career opportunities with KPMG,
- Network with other student leaders and KPMG professionals; and
- Get a jump start on the campus recruiting process.

Discover KPMG is a local leadership program that gives students a first-hand look at a career at a global professional services firm. Participants will network directly with local office leadership, client service professionals, and recruiters. Activities may range from technical case studies, leadership development workshops, and community service to exposure to client engagement situations. Students will gain insight into what it means to be a professional at KPMG.

KPMG's Fast Forward National Leadership Program is an interactive training program focused on enhancing participants' existing leadership skills, while meeting and networking with other student leaders from across the country. A key component of this program is framing global leadership concepts with real-world perspective through sessions facilitated by KPMG Partners. Participants will also gain insight on how to continuously develop leadership throughout their careers, whether in the U.S. or in another part of the world. The 2014 program will take place in Hollywood, California.

KPMG's Global Advantage Leadership Program, much like the Fast Forward program noted above, is an interactive training program focused on enhancing participants' existing leadership skills, while meeting and networking with other student leaders from across the country. In addition to the KPMG Partner-led training sessions, participants will gain a global perspective and build their network through interactions with KPMG professionals and clients from outside the US. The 2014 Program will take place in London, United Kingdom.

Qualifications:

Students applying for the programs should have two years remaining in their education before being eligible for full time employment (2014 program participants should have a final graduation date of May 2016). Applicants must be pursuing an accounting or IT degree and be interested in pursuing a career with a public accounting firm. Students interested in the Global Advantage program must also have a valid passport or be in the process of obtaining a passport.

About KPMG:

KPMG LLP is the audit, tax and advisory firm that has maintained a continuous commitment throughout its history to providing leadership, integrity and quality. KPMG offers global clients industry insights and a multidisciplinary range of services.
