Breakout

1. What other ideas do you have for our approach to collaboration and partnering?
2. Would these ideas resonate with your company? What would be required to make the GSB “pitch” more attractive?
3. Are there examples & learnings that you can share about how your organization partners with academic institutions?
4. What advice do you have on the pitch deck?
5. Is there a badge program in place in your company? If yes – what can you share with us? If no, What would make such a program attractive to you?
